In incorporated towns or incorporated villages whose limits are coextensive with the limits of a township, or in any organized town where the number of voters at the last preceding general township election exceeded 800, the county board may require one or more additional ballot boxes and places for the reception of votes to be provided which places shall be selected with reference to the convenience of the electors of the town. The county board shall, except as hereinafter provided, appoint 5 persons in each district to serve as judges of election. However, in townships which lie wholly within the limits of an incorporated city, and in any township whose territorial limits are coextensive with the territorial limits of any incorporated city, village or incorporated town, the common council of such city or the board of trustees of such incorporated village or town shall divide such townships into election districts, and designate the voting place in each district, and appoint 5 judges of election for each such district, who may be the same persons as are appointed as judges of election for city, town or village officers held on the same day; and shall also designate the place where the miscellaneous business of the township shall be transacted. In such townships it shall be lawful to print or write the names of candidates for city and township officers, on one ballot, and use only one ballot-box at each voting place. And in all townships that are thus divided into voting districts, it shall be the duty of the town clerk, or if there be no town clerk, it shall be the duty of the county clerk to post up, in 3 of the most public places of the township, a notice of each of the places in the township where the county board, city council or board of trustees has directed and required the election to be held, and of the place designated for the transaction of the miscellaneous business of the township. The meeting for the transaction of such miscellaneous business in such township shall be held at the hour of 2 o'clock in the afternoon of such day. At such meeting a moderator shall be chosen to preside by the electors present, and the town clerk shall act as clerk of the meeting, and keep a record of the proceedings thereof.

In any township which is not coextensive with or included entirely within a city, village or incorporated town, where no more than one name is entitled to be printed on the ballot for any township office, the board of auditors of the township, at least 30 days prior to the date of such election, shall divide such township into one or more election districts, designate the polling place or places, and appoint 5 judges of election therefor. Notice of such polling places and election districts shall be published or posted in the manner required for notice of town meetings.

The judges of election, in their respective election districts, shall conduct such election as nearly as may be in accordance with the general election laws of this State so far as applicable, except that no registration of voters shall be required; and immediately upon closing the polls, they shall canvass the votes polled in the manner provided in the general election law of the State, and make a written statement or certificate of the number of votes cast at such election for each person voted for, and the office for which such person received such votes, and shall within 48 hours thereafter cause such certificate and the poll-lists together with the ballots cast at such election to be separately sealed up and transmitted to the clerk of the township. The supervisor, together with the assessor and town clerk,

shall, within 5 days thereafter, meet and canvass such returns and declare the result of such election: Provided, further, that this Act shall not be construed in any manner to amend, modify or repeal any of the provisions of Articles 6, 14 and 18 of 'The Election Code', approved May 11, 1943, as now or hereafter amended, nor shall the provisions of this Act apply to or affect any city, village or incorporated town that has, by vote of the electors thereof, adopted those provisions of the Act last hereinabove mentioned."

The Committee conducted hearings on May 20, 1959 and on May 28, 1959. Testimony of employees of the SASP was heard, General Robert M. Woodward of the Illinois Civil Defense Agency testified briefly and Mr. Douglas Scott, former Civil Defense Director of Carpentersville, also testified. The Committee wishes to thank Mr. Merle Moore of the SASP and General Woodward of the Illinois Civil Defense Agency for their cooperation in producing witnesses and information to the Committee.

FINDINGS

1. The Committee found that the cost of the accumulation of heavy construction machinery in Carpentersville, Illinois, was paid by a private builder in Carpentersville and that the private builder used the equipment in his business.

2. The account of the Village of Carpentersville with SASP has not been paid. There is \$962.81 owing to SASP but no effort has been made to collect this amount. Instead of taking action against the persons using the equipment for private gain, portions of the \$962.81 have been charged to public and private institutions upon redistribution of these items.

3. Surplus property was improperly directed to Carpentersville while there was a genuine need for it at other institutions.

4. The Illinois Civil Defense Agency was aware of large accumulations of surplus property by Carpentersville in a letter dated June 12, 1958, questioning the propriety of the issue of sporting goods such as boxing gloves to Carpentersville Civil Defense. General J. L. Homer of the Illinois Civil Defense Agency said, "Don't kill the goose that laid the golden egg."

5. The SASP knew of the large accumulation of surplus property and did nothing about it.

6. There is little or no control or check made on the use of surplus property once distributed.

7. Aside from the initial distribution of property at the time it is declared surplus, the agency is responsible for redistribution of certain items when the original donee no longer needs the item. Periodic checks should be made on these items.

8. In recent months, progress has been made in accounting procedures.

9. The responsibility for the Carpentersville affair lies primarily on the SASP who issued the property. The Illinois Civil Defense Agency must share the blame because they failed to keep proper control over the Carpentersville unit.

10. At the time of the Carpentersville transaction, the SASP was not employing generally accepted accounting principles and was far behind in the posting of the accounts which were kept. Property was not distributed according to needs but to favored donees such as Carpentersville.

## RECOMMENDATIONS

There is a serious need for a re-evaluation of the present structure of the SASP. Because of limitations of time and scope, the relationship of that agency with the Illinois Civil Defense Agency was not fully developed in the course of our two hearings.

Because of the value of the property handled and the need for such property by so many eleemosynary and public institutions, we suggest that a Commission be established to study the distribution of surplus property, with particular reference to establishment of a program of distribution based upon need and priority.

The relationship of the program to the Illinois Civil Defense Agency should be included in such a study and the Civil Defense Agency's activities should be studied to determine if they could be more effective. The two agencies' activities are so intertwined that a study of one without the other would not be effective.

We suggest a Commission composed of 9 members, three from the House of Representatives, three from the Senate and three members from the public to be appointed by the Governor. An appropriation of \$----- should be sufficient to pay the costs of the Commission.

Legislation should be adopted requiring the SASP to maintain an accounting system in conformance with generally accepted accounting principles.

Quarterly reports showing all property received during the past quarter together with a list of all items distributed during the period where the acquisition cost was in excess of \$2,500. The list should name the donee and date of distribution.

## REPORT OF HEARINGS AND INVESTIGATION

Because of the immense amount of construction machinery which was mis-used at the Village of Carpentersville, the Committee devoted most of its efforts to determining what had caused the situation in that area. The testimony of Douglas Scott, Director of Carpentersville's Civil Defense, tells a good part of the story. He was duly appointed to his position and proceeded, in August of 1957, to file a plan of his proposed operations with the State Civil Defense Agency. Unfortunately, General Woodward did not provide us with a copy of the plan. A subcontractor for a local builder was named engineering officer for the local Civil Defense unit. Mr. Scott then proceeded to draw heavy construction equipment from the SASP through 1957 until June of 1958.

A joint inventory undertaken by the State of Illinois and the office of Civilian Defense showed that Carpentersville drew in excess of \$300,000 worth of equipment during that period. In order to acquire the equipment, it was necessary to pay the SASP a sum of money equal to 1 per cent of the United States Government's acquisition cost, plus the freight charges for carrying the property from the place it was available to Carpentersville. These were paid by Mr. Scott through an official checking account. Funds for this account were supplied by L. W. Besinger & Associates according to Scott. Upon receipt of the equipment, it was turned over to a private contractor who proceeded to use it in his private business.

There is no question that the SASP was aware of the large accumulation of property in Carpentersville because it was distributed by this agency. The Illinois Civil Defense Agency also processed the requests for the equipment and, on occasion, questioned the suitability of certain items for Civil Defense purposes. Illinois Civil Defense went so far as to request permission for Carpentersville to acquire a lathe to be used in the maintenance of their construction items.

All seems to have operated smoothly until June 12, 1958. On that date, General J. L. Homer wrote to Mr. Scott warning him about the death of the "goose that laid the golden egg". On the same day, General Homer wrote to Mr. Ernest R. Wolfe, then Director of SASP, inquiring about Carpentersville's large acquisition of machinery. He said he was curious as to how this came about. On

the same day, General Woodward requested an inspection into the situation at Carpentersville stating that the Agency was concerned with the large acquisition of surplus property there. The result of the investigation conducted by Eric A. Peach of the Federal Civil Defense Administration showed that most of the equipment was in the hands of a private contractor and was being used for private construction work.

All of the agencies involved then began an investigation which resulted in re-possession of the machinery by the Federal Government, who promptly again made it available to the State of Illinois. The SASP was able to find homes for the equipment in a short time. The fact that this equipment was so promptly redistributed shows that there was a need for it at places other than Carpentersville and that the SASP did not take into account these needs at the time it allocated the materials to Carpentersville. Some indication of the authority exercised by persons who were not even employees of the SASP can be gained from the "Dear Ed" letter written to Mr. Crowley begging for the allocation of a tractor for use by the Centralia High School. At this time, Mr. Crowley was employed as an Inspector of Commodities by the Department of Finance. SASP, at this time was under the Office of the Superintendent of Public Instruction.

Curiously, SASP has made no effort to collect \$962.81 owing to them from the Village of Carpentersville. Mr. Moore testified that this amount has been made up by charges to institutions who received the equipment after it was redistributed. It is difficult to understand why these later charges against educational and State institutions can erase the debt incurred by the Village of Carpentersville. It is fair to assume that any attempt to collect the money would ventilate an affair which SASP would prefer left in a dormant stage. In connection with the reluctance of SASP officials to enforce the obligations of Carpentersville, there is in the files of the SASP a dishonored check drawn to the order of SASP for approximately \$124.00. Apparently, no effort has been made to collect the check.

We cannot help but observe that the Illinois Civil Defense Agency was lax in the regulations of the Carpentersville program. Mr. Scott testified that no one for the Civil Defense Agency had inspected his physical operations after he was accredited. The witness acknowledged that anything could have flourished under this loose type of program. It is consistent with Scott's testimony to the effect that the Illinois Civil Defense Agency did not keep a copy of his plan, that no such plan was included in the Carpentersville file made available to the Committee. It should have occurred to the Illinois Civil Defense that any plan involving the accumulation of much heavy machinery could not be financed by a village the size of Carpentersville. In addition to the 1 per cent of original cost which must be paid to SASP, freight charges on all of the equipment also had to be met. Illinois Civil Defense should have inquired about the source of the money before it approved the plan.

While Federal statutes and regulations govern the distribution of property to a large extent, they have been drawn in such a way that warehouse procedure and determination of priority is left to the discretion of the state. It was, no doubt, assumed that the states were capable of regulating certain basic requirements such as bookkeeping and impartial distribution of surplus property. The Carpentersville affair shows that Illinois has failed in these respects. Illinois must do more than merely conform with the Federal regulations. It should seek to surpass them and provide a model for the utilization of surplus property. While bookkeeping improvements have recently been made by SASP, past history shows that the temptations in the handling of this property are very great.

We have only to look at the audit made of SASP by Lybrand, Ross Bros. & Montgomery of September 29, 1958, to see how badly the agency was managed. They complain that no general ledger was in use, that no monthly statements were sent out before June 30, 1958, that credits were made to certain accounts with no explanation, that some inventory records were not made and others were not up to

date, that property was stored outside where it could deteriorate and be subject to pilfering, that no time sheets or time accounting was required of employees, that the accounting records were inadequate and not properly maintained and that annual financial statements were not prepared.

It is no surprise to find the Carpentersville story arising from an agency whose records are in such condition. It is no surprise to find employees of other departments actively managing affairs of the SASP.

We want also to call attention to the report of an audit on the Illinois Civil Defense Agency by B. A. Gorny, dated September 29, 1958. He reports that the condition of the records kept prevents giving an opinion on a Federal Civil Defense Trust Fund. Such accounting practices should not be permitted and it should be determined why they are permitted.

Legislation should be enacted to assure that future operations of SASP leave no question in anyone's mind of impropriety. Since the activities of SASP are connected directly with those of the Illinois Civil Defense Agency, study of both agencies with reference to future legislation should be conducted at the same time.

The Committee conducted hearings on May 20, 1959 and on May 28, 1959. Testimony of employees of the State Agency for the Utilization of Surplus Property was heard, General Robert M. Woodward of the Illinois Civil Defense Agency testified briefly and Mr. Douglas Scott, former Civil Defense Director of Carpentersville, also testified. The Committee wishes to thank Mr. Merle Moore of the State Agency for the Utilization of Surplus Property and General Woodward of the Illinois Civil Defense Agency for their cooperation in producing witnesses and information to the Committee.

The actual time devoted to taking of testimony and the consideration given to records which were produced at the hearing consumed approximately three hours. During such a short space of time some witnesses were not permitted to complete

their testimony, others were stopped from giving additional testimony, and still other material witnesses were not called.

Surplus property is made available by the Federal Government through the Department of Health, Education and Welfare. The State Agency authorized to receive and distribute such property for the Federal Government is authorized by State statute.

Before a State Agency begins operation, it is required that it submit a plan of operation to the Department of Health, Education and Welfare and approval must be given to it before a State Agency can operate. Approval was given to the above plan and the Illinois Agency was authorized to operate thereunder.

The function of the State Agency for Surplus Property is to obtain surplus property through the donation program from the various agencies of the Federal Government and to distribute it as equitably as possible to the eligible educational institutions and the hospitals and Civil Defense units in the State of Illinois. This program is controlled and operated *completely* in accordance with Federal law and regulations.

This State Agency never acquires title to any of the property but merely acts as a medium for the transfer of such property to eligible donees.

Under the Federal regulations the State Agency is authorized to levy a service charge for making such transfers of property. Expenses of the Agency are paid out of such funds. The Agency is self-sustaining and no State appropriation is made for its operation.

Considerable emphasis is placed upon property given to the Carpentersville Civil Defense area. Insufficient testimony was offered and little consideration was given to the manner in which Civil Defense units come into existence and how they operate. There are approximately 400 such units in Illinois. When established and approved by Federal Agencies, a Civil Defense unit is entitled to draw property from, and through, the State Civil Defense Agency. Applications for property for the Carpentersville Civil Defense unit have either the approval of the Civil Defense Director or the Regional Director for Surplus Property, Battle Creek, Michigan. This is done pursuant to Federal rules and regulations. There is no State statute governing this nor is this a matter for State jurisdiction. Any attempt on the part of the Legislature to control the disposition of Federal property would be invalid and contrary to Federal regulations.

The State Agency for distribution of Federal surplus property has been questioned concerning its duties after a Civil Defense unit acquires property. An examination of the Federal statute, and its rules, bear out the fact that once a Civil Defense unit draws property from the State Agency, they immediately obtain exclusive title and jurisdiction over such property subject to Federal regulation. The State Agency for surplus property has neither power nor obligation to investigate the manner in which such property is used after it has been acquired by a Civil Defense Agency. The property allegedly mis-used by the Carpentersville Civil Defense unit has been repossessed by the Federal Department of Health, Education and Welfare. This department requested the State Agency to re-distribute such property to other eligible donees in the manner in which other property is distributed by such Agency. In doing so, the State Agency was also authorized to charge a minimum fee which was applied against the indebtedness of the Village of Carpentersville, thereby eliminating the debt that Village owed for the property it acquired.

Attempts have been made to discredit a Mr. Crowley, who was not an employee of the State Agency for surplus property but who had been designated by the Department of Finance to acquire for the State such property as was made available by the Federal Government and useable by various State institutions. It should be pointed out that this employee during this period of time acquired approximately \$4,500,000.00 worth of property, in addition to 160 acres of rich land which the University of Illinois is acquiring for only the payment of a recording fee. It would

seem that his efforts should be commended rather than he be criticized for some slight impropriety of which he has been wrongfully accused.

Whatever the State Agency charges for distribution of property; whatever its manner of distribution may be; how they manage their office; and how they keep their accounts is not a matter for the State of Illinois to question but is subject entirely to the supervision and audit of the Federal Government.

In view of the above, it is quite obvious that any investigation into the management of the distribution of Federal surplus property is a matter for the Federal Government to interest itself in and is not within the jurisdiction of this committee. Furthermore, due to the limited time and lack of consideration given the subject matter of this investigation, this committee is in no position to make recommendations of any kind.

Respectfully submitted,

		OF THE RESULT OF THE ELECTION FOR
STATE OF ILLINOIS	} ss.	REPRESENTATIVE IN THE 71ST GENERAL
		ASSEMBLY OF THE STATE OF ILLINOIS
HOUSE OF REPRESENTATIVES	}	FROM THE 46TH REPRESENTATIVE DISTRICT.

*To the Honorable Paul Powell, Speaker, and Members of the House of Representatives of the 71st General Assembly of the State of Illinois:*

Your committee on Elections and Reapportionment, to which was referred the contest of Willis L. Stamm, contestant, vs. Rae C. Heiple II, Walter E. Hill and C. R. (Butch) Ratcliffe, in the 46th Representative District of the State of Illinois, begs leave to report that a subcommittee was appointed to conduct a recount of Ballots in the above entitled contest.

The chairman of the sub-committee appointed 3 committee member teams for Fulton County, Mason County, Tazewell County and a 2 committee member team for Cass County. These teams represented both political parties. A motion was adopted by the sub-committee that this procedure be followed:

(1) The respective county clerks be directed to convene four persons plus the County Clerk as canvassing teams consisting of two from the Democratic Party and two from Republican Party, and to include the party chairman in each county or their designated representatives at 4:00 o'clock P.M. on Thursday, June 18, 1959.

(2) The 3 member committee teams be present in each county at that time

for the purpose of inspecting the ballots prior to the commencement of the recount.

(3) The canvassing teams be directed to perform the recount using forms and procedure similar to the original election procedure required by law, setting aside any ballots disputed by the watchers of either contestant or the canvassing board itself who shall be present during the recount.

(4) That suitable measures be taken by the county clerks to preserve and safeguard both the recounted ballots and disputed ballots.

(5) The 3 member committee teams be reconvened in the county seat after the recount has been completed to rule on the disputed ballots and any other questions raised by the contestants during the recount.

(6) That a court reporter be present at each meeting of each of the 3 committee member teams when making a ruling on disputed or debatable ballots.

(7) The attorneys of the 2 contestants in question were advised to have their watchers present during the recount.

(8) A copy of the said sub-committee majority report, together with words and figures are attached hereto and are made a part of. The results of the recount conducted by the 3 committee member teams are as follows.

C. R. Ratcliffe	48,362	Votes
Walter E. Hill	40,506	Votes
Willis L. Stamm	39,707½	Votes
Rae C. Heiple II	39,650	Votes

On the basis of the above listed figures, your committee therefore, recommends that the contestant Willis L. Stamm, be seated instead of contestee Rae C. Heiple II, and that Willis L. Stamm, Walter E. Hill and C. R. Ratcliffe, be declared to have been elected as Representatives in the General assembly of the State of Illinois from the 46th Representative District of Illinois and entitled to their seats in the House.

Respectfully submitted,

MATT ROPA

HEARING OF SUB-COMMITTEE HELD IN ROOM 314, STATE HOUSE,  
JUNE 29, 1959, ELECTION CONTEST 46TH DISTRICT

Meeting was called to order by the Chairman, Representative Fanta.

Representative William Pierce: In my opinion members of the sub-committee agreed unanimously with the results found in Cass County.

Representative Stastny: Representative Pierce and I served as co-chairman in Cass County and agree that the report as submitted is accurate and factual in Cass County.

Representative Hansen: We had the same situation existing in Fulton County, with all the parties in agreement with the results and have submitted a report so that everybody can see it.

Representative Partee: Parties harmoniously agree to the reports certification in Mason County.

Representative Fanta: It was agreed by the members of the committee in Tazewell County that everything was in order and pertaining to the rules and regulations of the Election Laws Commission.

Motion was made by Representative Partee and seconded by Representative Erlenborn, that:

WHEREAS, the canvassing teams in each of the four counties in this Election Contest are in agreement as to the certified recount in each of their respective counties; and

WHEREAS, the sub-committee is accordingly in unanimous agreement as to the total vote as recounted for each of the candidates.

Now, therefore, it is unanimously agreed that this sub-committee report to the full Elections and Reapportionment Committee as to the results of the recounts as follows:

### RECOUNT FIGURES

	HILL	HEIPLE	RATCLIFFE	STAMM
CASS .....	3,109½	2,552½	9,694½	2,268
FULTON .....	17,166½	10,266½	13,466	11,238
MASON .....	3,885½	4,075½	6,455½	3,904½
TAZEWELL .....	16,344½	22,755½	19,246	22,297
<hr/>				
Total .....	40,506	39,650	48,862	39,707½

It is further agreed that the full committee be informed that the sub-committee is satisfied that the totals reflected in this report accurately portray the valid vote cast for each candidate.

Motion was made by Representative Mikva and seconded by Representative Hansen, that:

It is recommended that the Elections and Reapportionment Committee comment on the large number of ballots which had to be rejected because of the failure of the judges in some of the precincts to initial the ballots on the back as required by law. Since it would appear that some of these rejected ballots were absentee ballots, consideration should be given by the next General Assembly to amending the law to safeguard against such failures in the future.

It was unanimously agreed by the Chairman and members of the sub-committee to submitting this report to the committee as a whole on Elections and Reapportionment.

Respectfully submitted,  
Sub-Committee, Election Contest 46th District

JOSEPH F. FANTA, *Chairman*  
WILLIAM PIERCE  
CECIL A. PARTEE  
JOHN J. HILL  
J. LISLE LAUFER

FRANK A. MAREK  
JOHN N. ERLNBORN  
OSCAR HANSEN  
KENNETH E. WILSON  
ABNER J. MIKVA.

Pending discussion, Mr. Burhans made a parliamentary inquiry as to how many votes are required to adopt the report of the Committee on Elections and Reapportionment.

The Speaker made the following ruling:

The Constitution provides that the House shall be the judge of the elections, returns and qualifications of its members.

"In an election contest, how many votes are necessary in order to unseat a member whose seat has been contested, and seat the contestant?"

The Constitution provides no answer to this question. The House rules also are silent as to the number of votes necessary to unseat a member as a result of a finding by the Committee on Elections and Reapportionment in an election contest.

House rules provide that in cases in which the House rules do not cover the situation that Roberts Rules of Order-Revised shall govern. Section 48 of Roberts Rules of Order provides in the first paragraph, as follows:

"Any legitimate motion not included among those mentioned below as requiring more than a majority vote requires for its adoption only a majority; that is more than half the votes cast, ignoring blanks, at a legal meeting where a quorum is present, unless a larger vote for its adoption is required by the rules of the Assembly." Precedent is available, both in this House and also in the Congress of the United States.

In addition, our House Rules adopted at the beginning of the session clarifies the situation which may arise in the election of a Speaker, and specifically provides that, a quorum being present, a majority of the votes cast is sufficient.

Rule 1, Page 196 of Handbook, 71st General Assembly: In the election of any officer of the House, a member who answers "Present" shall not be counted as voting. On all other propositions and questions a member who answers "Present" shall be counted as voting. It seems clear that the rules of the House as aforesaid apply to the question now presented. The Chair therefore rules, a quorum being present, that the votes of a majority of those voting is sufficient to unseat a member on the hearing of an election contest and to seat the contestant.

Pending further discussion, Mr. Ryan moved the previous question.

And the question being, "Shall the main question be now put?" it was decided in the affirmative.

The question being on the adoption of the report of the committee, a vote was taken resulting as follows: Yeas, 93; nays, 71; answering present, 3.

*Chairman of the Committee on  
Elections and Reapportionment.*

REPORT OF THE SUBCOMMITTEE OF THE COMMITTEE ON  
ELECTIONS AND REAPPORTIONMENT OF THE HOUSE OF  
REPRESENTATIVES OF THE 71ST GENERAL ASSEMBLY

IN THE MATTER OF THE ELECTION CONTEST OF

TOBIAS G. "TOBY" BARRY vs. WILLIAM C. HOLLERICH ET AL,  
THE FORTIETH REPRESENTATIVE DISTRICT  
ELECTION CONTEST

Your subcommittee heretofore appointed respectfully presents its report, stating that in accordance with the instructions of the committee it has conducted the recount of the ballots cast for the office of Representative in the General Assembly in the Fortieth Representative District at the election held on November 4, 1958. In accordance with a resolution previously adopted it employed Lowell B. Komic, attorney at law of Chicago, Illinois, as its deputy, and at this point is glad to state that his conduct of recounts at the county seats of the four counties involved has been commented upon most favorably by the county clerks and by the candidates. This subcommittee desires to express in this fashion its appreciation of his initiative, energy, discretion and tact.

The meetings of this subcommittee have been lengthy and have been well attended, all members of the subcommittee having been present at almost all times, with the exception of Representative George S. Brydia, who participated in only the final meeting. The conclusion of the subcommittee represents the opinion of nine of its members. The reasons for the conclusion are summarized in the latter portions of this report. The conclusion is embodied in the following resolution, adopted by the vote of nine of its members present at a regular meeting of the subcommittee held in Room M-5 of the State Capitol on Sunday evening, June 28, 1959. The resolution is as follows:

"Resolved that this subcommittee, having completed the recount in accordance with instructions hitherto given to it, the results of which recount are contained in this report, finds that because of the lack of probative value of the ballots themselves, the results of the recount should be disregarded and the results of the canvass of the vote as made by the county canvassing boards in the respective counties, presided over by the respective county clerks, immediately following the general election held on November 4, 1958, be accepted as conclusive of the results of the election for the office of Representative in the General Assembly in the Fortieth Representative District; and that the subcommittee recommends to the Committee on Elections and Reapportionment the adoption of this conclusion; and that the subcommittee further recommends that the Committee on Elections and Reapportionment recommend to the House of Representatives of the 71st General Assembly that it disregard the results of the recount and accept as conclusive in the said election the results as certified by the county canvassing boards above mentioned; and that Charles K. Willett, W. K. "Kenny" Davidson and William C. Hollerich be declared to be the duly elected Representatives in the General Assembly from the Fortieth Representative District."

This subcommittee is of the opinion that it was well worth while to conduct the recount even though it feels, for reasons hereafter stated, that its results cannot be accepted. The fact that this subcommittee feels that the results of the recount cannot be accepted is based upon its decision that the condition of the ballots was such at the time of the recount as to make it impossible to consider them as being in all cases genuine and valid ballots. In view of the doubt as to the validity of large numbers of the ballots counted in the recount, the members of the subcommittee who have signed this report were of the opinion that the best evidence of the results of the election of November 4, 1958, was the canvass by voting precincts made by the county canvassing boards very shortly after the holding of that election.

The subcommittee took extensive testimony, during which the contestants or their attorneys were present at all times and were afforded unlimited opportunity for examination and cross-examination, from the county clerks of the four counties involved, namely:

Tony A. Fenoglio, County Clerk of Bureau County  
John Kenward, County Clerk of Henry County  
Sterling D. Schrock, County Clerk of Lee County  
James T. Jackson, County Clerk of Stark County

Under lengthy and detailed questioning, all four county clerks stated that on the night of November 4, 1958, they received personally the bags of ballots and other election paraphernalia as they were brought in from the precincts by the authorized judges of election. All four county clerks stated that some of the bags containing ballots were received by them in an unsealed condition, but all of the county clerks stated that they were unable to state how many bags were received in this condition and how many were sealed at the time of their delivery to the county clerks.

Each of the four county clerks testified that some of the bags were received many hours after the closing of the polls, and in one case in Stark County a judge of election was given permission in advance to bring in the ballot bags on the following day, and this judge did in fact deliver the bag and other election material to the county clerk at the opening of the clerk's office at approximately 9 A.M. on November 5, having retained the ballots and other election paraphernalia in his possession at his home in the meantime. In the opinion of this subcommittee, there were many instances of undue delay, but no records were kept by the county clerks of the time of receipt of the ballots and other paraphernalia from the election precincts. However, testimony as to the distance of the election precincts from the office of the county clerk, hearsay testimony as to the time of the completing of the count in various precincts and various other factors influenced this subcommittee in arriving at its conclusion that there were many instances of undue delay.

There were likewise many instances of non-compliance with the law as to the manner in which the ballots and other election paraphernalia should be sorted, enclosed in envelopes, boxes or sacks, tied and sealed. The result of this delay and of the omissions to properly sort, package, seal and deliver the ballots afforded many opportunities for tampering with the ballots, although this subcommittee heard no evidence indicating that the ballots had actually been tampered with.

Each of the four county clerks testified as to his lack of knowledge concerning how many ballot bags were delivered unsealed, but each testified that some ballot bags were delivered in an unsealed condition. In no case, however, was the county clerk able to testify as to how the unsealed bags became sealed subsequent to their delivery to him, or as to who affixed the seals. Other members of the staffs of the county clerks were equally unable to supply this information as to the sealing of ballot bags after their receipt by the county clerks.

Likewise, the four county clerks were unable to testify as to which or how many of the ballot bags were sealed and how many were without a seal at the time of the discovery recount. It is true that after the discovery recount the ballot bags were in all instances sealed after the ballots were replaced therein, but this, of course, goes only to the question of the preservation of the ballots from the date of the completion of the discovery recount to the date of the current legislative recount, when the seals placed at the conclusion of the discovery recount were broken for the purpose of the legislative recount.

Each of the four county clerks testified at length concerning the lapse of time between the receipt by him of the ballot bags and other election paraphernalia in his office, and his depositing of such matter in a place of permanent storage, or at least storage for the length of time required by law. This subcommittee found not

only that there is a wide disparity of facilities for such purposes provided by the four counties involved, but also that there were wide disparities in the manner of storage inside of these various storage facilities.

In one county this material was stored simply by piling it on top of a set of wooden shelves stated to be approximately eight feet tall, against a wall in the office of the county clerk. The ballot bags and other material lay in plain sight on top of this shelving and with no other covering or fastening. The public was free to come and go in this office. Testimony showed the building to be securely closed at night, but it is the opinion of this subcommittee that the county is negligent in failing to provide a more secure location for the storage of such materials. In this county, the election materials were placed in this place of final storage immediately upon their receipt, although as indicated above no record was made concerning the sealed or unsealed condition of the ballot bags, nor of the time of their receipt.

In another county the ballot bags and other materials were taken to a so-called storage vault with an iron office vault type door, located on a different floor of the building from the clerk's main office, but the gradual moving of this material to this storage place was spread over approximately two days of time.

In another county this material was stored in what this subcommittee deemed to be a secure vault, and the vault door was sealed. Although it did not remain continuously sealed from the time of the deposit of this material until the discovery recount, the seals were broken only by the county clerk or an authorized agent and were immediately replaced upon the reclosing of the vault.

However, in this same instance, the subcommittee feels that there was an undue and dangerous delay, variously stated to be seven or eight days, in the time of the removal of this material from the clerk's main office to this storage vault. During the time that this material remained in the county clerk's office, it was accessible to anyone entering, and testimony showed that, in view of the limited personnel of that office, there were periods of time when no employees of the office were necessarily in the same room with this election material.

In another county, the ballot bags and election material were, upon their receipt, apparently merely dumped on the floor in a corner of a large room, where they were left permanently. This room was referred to as the vault, but cannot be considered to be such from a structural point of view, except for the fact that it had an iron door at one end. This room was the general office of the county clerk, and is actually a semi-basement room, entered by a stairway from the clerk's main office on the floor above. There is no barrier between the clerk's office on the floor above and this lower room except a swinging gate at the head of the stairs.

Three employees of the clerk worked in this space regularly, and the space contained court files and the county records of real estate, etc. Lawyers and other persons were permitted to enter this room freely and to open various file drawers and other places for the keeping of records during the regular business hours, regardless of whether any employee of the county clerk was present in the room at the moment or not. Likewise, the county board of supervisors used this room for its regular meetings, and the general public was free to come and go. The testimony was that, as the election material lay on the floor in the corner, it had been covered by large sheets of wrapping paper, but no one was able to testify as to whether this material had been moved, disturbed or otherwise tampered with.

Thus, with the exception of one county, these ballot bags and other election materials were stored in places to which access was freely had by the maintenance and other employees of the county building, and these same places were used for the storage of building and cleaning materials. Furthermore, the general public had substantially free access, keys for the premises were rather widely dispersed and no systematic precautions were taken to make sure that employees of the county clerk were present when other persons were in the vicinity of these ballots.

The subcommittee was next concerned over some phases of the handling of ballots during the so-called discovery recount. In one county the ballots from nineteen precincts were handled continuously by a person who not only was not authorized by law to handle ballots at all during the course of a discovery recount, but who was also known to be politically opposed to one of the parties to the contest, who was not present in person nor by deputy. This practice would unquestionably have continued throughout the discovery recount in that county except that one of the parties in the contest, upon learning by hearsay of this, protested to the county clerk, who thereupon sought a legal opinion from the state's attorney, and thereafter discharged this person and conducted the discovery recount in accordance with the statute.

Furthermore, in connection with the discovery recount, no ballots were counted under the provisions of Section 22.1 of the statute, this section providing for the opening of envelopes containing defective and objected to ballots. This was true in all four counties.

In addition, in all four counties, since the discovery recount is an ex parte proceeding, there was no known effort to separate or distinguish valid from invalid ballots. Large numbers of ballots were counted which lacked the initials of any election judge, such as is required by law to be placed on every ballot by a judge of election at the time the ballot is cast.

At the time of the discovery recount, no record was made of the condition of the ballot bags at the time of their opening. This fact makes it impossible for this subcommittee to make any examination concerning the condition of the ballot bags at the time of their original delivery to the county clerks or during the period of their storage by the county clerks between the approximate date of the election and the time of the discovery recount.

After the discovery recount, all bags were sealed by the respective county clerks, and the manner of sealing by the county clerks differed in a great number of instances from the original manner of sealing, but there was no way by which this subcommittee could retrospectively discover which ballot bags had been sealed prior to the discovery recount and which had not been so sealed.

Furthermore, in the course of the recount by this subcommittee, ballots were found among those of two counties, on which had been written various numbers and tabulations of votes, some for candidates and some for propositions, and also in several cases signatures had been written on the face of the ballots. This subcommittee has no way of knowing whether these ballots were so marked during the discovery recount, or by whom they were so marked, or whether they were so marked in the precincts in which they were cast, or whether they were originally deemed, in the precincts in which they were cast, to be spoiled or defective ballots, or whether they were valid ballots which had been thus defaced by others than the voters who cast them. No record was made of such ballots on the discovery recount, and yet this subcommittee found these ballots intermingled with valid ballots at the time of its recount and has no way of knowing whether they were thus intermingled prior to the discovery recount or subsequent to it.

Furthermore, at the time of making its recount, this subcommittee discovered that in a great majority of precincts the election materials returned to the county clerk by the election boards did not include any envelope containing defective and objected to ballots nor any envelope containing spoiled and not voted ballots. On the other hand, there was evidence that spoiled and not voted ballots as well as defective and objected to ballots were placed in the ballot bag indiscriminately with validly voted ballots.

In fact, the real gist of this whole matter is that the judges of election in a majority of the precincts did not make their proper returns when it came to sacking the ballots, sealing the bags, enclosing the defective and objected to ballots in the proper envelope and identifying spoiled ballots, all three of which kinds of ballots

were included in the bag with the good ballots which had been in the ballot box.

Comparisons by this subcommittee of the numbers of ballots in the bags from various precincts with the total number of votes cast in these same precincts revealed that in a great many cases there was a substantially larger number of ballots in the bag than the total vote showed for that precinct. This is, in the opinion of the subcommittee, substantially accounted for by the placing in the ballot bags of various spoiled, defective, or objected to ballots. These ballots cannot be distinguished from valid ballots, particularly in those instances when a voter, after having received a ballot and marking it in whole or in part, returned it to the election board because of a mistake in marking or a change of mind, and asked for and received a new ballot, but both the second ballot and the original ballot were placed in the ballot bag by the precinct election board. Among all the ballots recounted, this subcommittee found only two on which the word "Spoiled" had been written across the face, as required by law.

Conversely, this subcommittee found that in many other cases, the ballot bags contained a lesser number of ballots than were shown by the report of the canvassing board to have been cast.

For example, but also by way of illustration of similar conditions in the other three counties, Lee County has forty-one voting precincts. In the ballot bags of ten of these precincts, there were a total of sixty ballots in excess of the total number cast as reported by the canvassing board. In the same county, there were seven precincts in which there was a deficiency of forty-three ballots below the total cast as shown by the county canvassing board. In other words, in seventeen out of forty-one precincts, or more than 40% of the precincts in the county, there were significant and substantial variations. The situation in this county is entirely typical of the other counties, and this subcommittee ascertained that, in the contest here involved, the results are so close as to make it possible to have them determined either way by the effect of these discrepancies alone.

Furthermore, during the course of its recount this subcommittee discovered large numbers of ballots which obviously had been counted both in the precincts in which they were cast and in the discovery recount, but which were as a matter of law invalid ballots because they lacked the initials of any judge of election in the precinct in which they were cast. This subcommittee, not desiring to be technical, counted all ballots in which the initials of a judge of election appeared on the obverse of the ballot, regardless of the position of those initials. However, the subcommittee could not count ballots which entirely lacked initials of any judge, particularly because there were repeated instances of large numbers of such ballots in a single precinct. Where the subcommittee observed merely an occasional uninitialed ballot, it was of the opinion that the lack of initialing was probably an accident, or an unintentional mistake, but when, as in some instances as shown by the tabulation hereto attached, there were substantial numbers of such cases in an individual precinct, this subcommittee was forced to the conclusion that the judges were grossly negligent.

In Lee County, for example, there was a total of fifty-five such ballots, the largest number in any one precinct being fourteen in Precinct Dixon No. 12. In Stark County, of which eleven precincts lie in the Representative District involved, there were twenty such ballots, the largest number being eight in the East Toulon Precinct. In Bureau County, there was a total of one hundred thirty-four such ballots, the largest number being twenty-two in Precinct Princeton No. 5. Attached to this report is a copy of a list showing the individual precincts, in these three counties, in whose election returns such ballots were found, and also the number of such ballots found in the ballot bags of each of these precincts.

It will be noted that the number of ballots of this type is, by itself, sufficient, if projected in favor of any one of several candidates, to substantially affect the result of the election in this Representative District.

The results of the official canvass of votes in each of the four counties involved, which canvass was held shortly after the election on November 4, 1958, and was conducted by the boards prescribed by law, are as follows:

	<u>Republican</u>		<u>Democratic</u>	<u>Independent</u>
	Charles K. Willett	W. K. (Kenny) Davidson	William C. Hollerich	Tobias (Toby) Barry
Bureau .....	9,547	8,971	12,497	12,732½
Henry .....	11,010	12,249	9,367	9,345½
Lee .....	12,330	8,899½	6,834½	5,299
Stark .....	2,223	2,744½	1,571	1,821

TOTAL .....	35,110	32,864	30,269½	29,198
-------------	--------	--------	---------	--------

The recount conducted by this subcommittee produced the following figures:

Bureau .....	9,491	8,971	12,372½	12,919
Henry .....	10,676½	12,223½	9,286	9,567½
Lee .....	12,740½	8,518½	6,735	5,717½
Stark .....	2,158	2,755½	1,529	1,888½
TOTAL .....	35,066	32,468½	29,922½	30,092½

On the question of whether the contestant, Tobias G. "Toby" Barry, fulfilled the constitutional qualifications so far as residence in the 40th District is concerned, exhibits were examined and extensive testimony and arguments were heard. All of this testimony and exhibits, together with many other materials on the recount, will be deposited in the office of the Clerk of the House of Representatives. Having heard this testimony, six members of the subcommittee expressed the opinion that Mr. Barry did not have the constitutional qualifications for membership; three members were of the opinion that he did have them, and two abstained from voting.

In conclusion, as stated at the outset of this report, this subcommittee feels that the results of the recount cannot be accepted because the ballots which the subcommittee recounted must be considered to include ballots which are invalid for one or more of the various reasons above set forth. The Supreme Court of Illinois has stated that ballots may lose their evidentiary value if they have been stored or kept under circumstances which afforded opportunity for tampering, even though there has been no specific proof of tampering. Furthermore, it has been definitely determined by this subcommittee that the ballots recounted contained some ballots, the exact number of which there is no way of ascertaining, which are in fact invalid ballots for one or another of the many reasons mentioned above. Since the results of the election as hitherto proclaimed are so close, they could be substantially changed by the inclusion of even a small number of invalid ballots, if such invalid ballots were to be counted. Since the signers of this report are completely convinced that there is a quantity, the exact number of which is unknown but believed to be substantial, of such invalid ballots included among those recounted, but impossible to be identified and thereupon separated, this subcommittee believes that the results of this recount should not be accepted as portraying the true results of the election held on November 4, 1958, and that the results as hitherto determined and reported by the canvassing boards of the respective counties should be accepted as conclusive, as being the best evidence available of the results of that election.

We do not subscribe to the decision of the majority in the subcommittee, who were assigned to the election contest in the 40th Representative District, whereby they elected to accept the total votes cast for each of the four candidates involved as submitted and tallied by the canvassing boards in the following counties: Bureau, Henry, Lee and Stark. All of these counties are in the 40th Representative District.

It is our contention that we should accept the result as determined by our own recount figures which totals were heretofore included in the report by the majority of this subcommittee.

Respectfully submitted,

EDWARD SCHNEIDER  
GEORGE S. BRYDIA

1. Every owner of a second division motor vehicle for which he has elected to pay a mileage weight tax shall keep a daily record upon forms prescribed by the Secretary of State, showing the mileage covered by that vehicle in this State. Such record shall contain the license number of the vehicle and the speedometer reading at the termination of each day for each calendar month. On or before the 10th day of the month following the owner shall certify under oath to the Secretary of State upon forms prescribed therefor, summaries of his daily records which shall show the miles traveled by the vehicle in this State during the preceding month and such other information as the Secretary of State may require. The daily record shall be filed and preserved for a period of three years. Any person who willfully swears to a false return is guilty of perjury and shall be punished accordingly.

2. At the time of filing his monthly return, each owner shall pay to the Secretary of State the proper amount of tax at the rate herein imposed.

If the Secretary of State has reason to believe and does believe that any return is incorrect, after notice to the person making the return and a hearing, he shall correct such return according to his best judgment and information, which return so corrected shall be prima facie correct. If the tax computed upon the basis of the mileage as fixed by the Secretary of State is greater than the amount of tax due under the return as filed, the person making such return shall pay the additional tax as computed by the Secretary of State, plus a penalty of 10% thereon, within ten days after notice of the amount of such additional tax and penalty is mailed to such person. If payment is not made within such ten days, the owner's election as applied to that vehicle shall terminate and the owner shall not operate that vehicle in Illinois without first having paid the full amount of the applicable flat weight tax imposed.

3. In case any owner of a second division motor vehicle for which he has elected to pay a mileage weight tax fails to make a return as herein required his election as applied to that vehicle shall terminate and he shall not operate that vehicle in Illinois without first having paid in full the amount of the applicable flat weight tax imposed herein.

4. Every owner of a motor vehicle of the second division who elects to pay on a mileage weight tax basis and who operates the vehicle within this State, shall file with the Secretary of State a bond in the amount of \$500.00 [five hundred dollars (\$500.00)] on a form to be approved by and with a surety or sureties satisfactory to the Secretary of State, conditioned upon said applicant's paying to the State of Illinois, all monies becoming due by reason of his operation of the second division motor vehicles in this State, together with all penalties and interest thereon.

5. In assigning number plates to any motor vehicle of the second division for which election of a mileage weight tax has been made by its owner, the Secre-

tary of State shall assign plates which have a color combination which is readily distinguishable from the number plates assigned, or to be assigned, to motor vehicles of the second division for which the owner has elected to pay the flat weight tax imposed by this Section.

(h) A registration fee of \$2.00 per annum shall be paid in the following cases:

1. Vehicles owned and operated by the State of Illinois, or by any county, township or municipal corporation.

2. Vehicles owned and operated as a school bus by any school district or religious, eleemosynary or denominational institution. Vehicles, owned or leased, and operated in a high school driver training program by any school district, or school operated by a religious institution.

3. Vehicles owned and operated by any religious denomination for the transportation of its members for religious purposes.

(i) Vehicles of the second division having a corn sheller, a well driller, hay press, clover huller, feed mixer and unloader, or other farm machinery permanently mounted thereon and used solely for transporting the same, and farm-wagon type tank trailers of not to exceed 1200 gallons capacity, used during the liquid fertilizer season as field-storage "nurse tanks" supplying the fertilizer to a field applicator and moved on highways only for bringing the fertilizer from a local source of supply to farm or field or from one farm or field to another, shall be registered upon the filing of a proper application and the payment of a registration fee of \$5.00 per annum. This registration fee of \$5.00 shall be paid in full and shall not be reduced even though such registration is made during the second half of the calendar year.

(j) Vehicles having permanently mounted equipment thereon used exclusively by the owner for the transporting of such permanently mounted equipment and provided such vehicle is not used for hire shall register such vehicles upon the filing of a proper application and the payment of a registration fee of \$5.00 per annum. This registration fee of \$5.00 shall be paid in full and shall not be reduced even though such registration is made during the second half of the calendar year.

(k) Dealers, manufacturers and transporters registered under this Act may obtain registration plates, for use as herein provided by law, at the following rates: Initial set of dealer's plates \$20.00, duplicate plates \$3.00; initial set of "in-transit" plates \$20.00, duplicate plates \$3.00; initial set of manufacturer's plates \$20.00, duplicate plates \$3.00.

(l) In the event that any owner of a vehicle desires to transfer the registration thereof to another vehicle requiring a higher registration fee, then such owner must pay an additional fee equal to the difference between the registration fee paid for the registration and the registration fee required for the vehicle with greater horse power or with a higher gross load classification, as the case may be, and in addition to such transfer fee shall pay a reclassification fee of \$2.00.

(m) The annual registration fee of motor vehicles, except mileage weight registration fees and except vehicles registered pursuant to paragraphs (h), (i), (j) and (k) of this Section, shall be reduced by 50% in the event that the application for the registration of such vehicles is filed with the Secretary of State after July 1 of any calendar year. This 50% reduction in registration fees shall not apply to motor vehicles of the second division if such motor vehicles were registered in the prior calendar year.

(n) Upon filing in the office of the Secretary of State an affidavit to the effect that an original number plate for a motor vehicle is lost, stolen or destroyed, a duplicate number plate shall be furnished upon payment of a fee of \$1.00 for each duplicate plate for a motor bicycle, \$2.00 for each duplicate plate for a first division vehicle, and \$3.00 for each duplicate plate for a second division vehicle. The Secretary of State may, in his discretion, assign a new number plate or plates

in lieu of a duplicate of the plate or plates so lost, stolen or destroyed, but such assignment of a new plate or plates shall not affect the right of the owner to secure a reassignment of his original registration number in the manner provided in this Act.

"Sec. 297. Reports and valuations.] (1) Every society doing business in this State shall annually, on or before the first day of March of each year, unless for cause shown such time has been extended by the Director, make and file with the director, in such form as he may require, a statement under oath of its president, secretary and treasurer, or corresponding officers, of its affairs, condition and operations during the calendar year ending on the thirty-first day of December last preceding, which shall be published, or the substance thereof, in the annual report of the Director.

(2) Every such domestic society, if it has an official publication or newspaper, shall publish in such official publication or newspaper a synopsis of its annual statement and valuation report as required by the Director, within sixty days after the same have been filed with the Director. The Director is authorized and empowered to address any additional inquiries to every such society in relation to its doings or condition or any other matter connected with its transactions relative to the business contemplated by this Code, and such officers of such society, as the Director may require, shall promptly reply in writing, and under oath if so required, to all such inquiries.

(3) In addition to the annual report herein required, each society shall annually on or before the first day of March of each year file with the Director a valuation of its certificates in force on December thirty-first last preceding; provided, however, that the Director may, in his discretion, for cause shown, extend

the time for filing such valuation, not, however, for more than two calendar months. Such report of valuation shall show as reserve liabilities the difference between the present mid-year value of the promised benefits provided in the contracts of such society in force and the present mid-year value of the future net contributions as the same are in practice actually collected, not including therein any value for the right to make extra assessments, and not including any amount by which the present mid-year value of future net contributions exceeds the present mid-year value of promised benefits on individual certificates. At the option of every society, in lieu of the above, the valuation may show the net tabular value, which in the case of monthly contributions may be the means of the terminal reserve values for the end of the preceding and of the current certificate years, provided, every society which combines its funds shall maintain all of its reserves on the net tabular basis and provided further that if the premium charged is less than the tabular net premium according to the basis of valuation used, an additional reserve equal to the present value of the deficiency in such premiums shall be set up and maintained as a liability. Such tabular reserve values may be computed so as to allow for not more than one year preliminary term insurance, and for certificates issued after December thirty-first, nineteen hundred and thirty-seven, if the premium charged for term insurance under a limited payment life preliminary term certificate providing for the payment of all premiums thereon in less than twenty years from the date of the certificate or under an endowment preliminary term certificate, exceeds that charged for like insurance under twenty payment life preliminary term certificates of the same society, the reserve thereon at the end of any year, including the first, shall not be less than the reserve on a twenty payment life preliminary term certificate issued in the same year at the same age, together with an amount which shall be equivalent to the accumulation of a net level premium sufficient to provide for a pure endowment at the end of the premium payment period equal to the difference between the value at the end of such period of such a twenty payment life preliminary term certificate, and the full net level premium reserve at such time of such a limited payment life or endowment certificate. The premium payment period is the period during which premiums are concurrently payable under such twenty payment life preliminary term certificate and such limited payment life or endowment certificate.

(4) Such valuations shall be certified by a competent actuary, or, at the request and expense of the society, verified by the actuary of the Department of Insurance of the home state of the society. The legal minimum standard of valuation for all death benefits shall be the National Fraternal Congress Table of Mortality, as adopted by the National Fraternal Congress, August twenty-third, eighteen hundred and ninety-nine or any higher table or, it may use a table based upon the society's own experience of at least twenty years and covering not less than one hundred thousand lives, and with interest assumption of not more than four per centum per annum, provided, that all death benefits provided in certificates issued after December thirty-one, nineteen hundred thirty-seven, shall be valued according to the American Men Ultimate Table of Mortality with interest assumption not more than three and one-half per centum per annum, *or, with the consent of the Director, any other standard of valuation authorized or required to be used by life insurance companies*, and provided, further, that all annuity certificates issued after December thirty-one, nineteen hundred thirty-seven, shall be valued according to the American Annuitant's Table with interest assumption not more than four per centum per annum. All disability benefits shall be valued according to Hunter's Disability Table with interest assumption not more than four per centum per annum, except that Class III Disability Experience modified to conform to the contractual waiting period with interest assumption not more than four per centum per annum shall be used for all benefits presuming that total disability shall be considered to be permanent whenever such disability has existed continuously for a period of six months or less. Each such valuation report shall set forth

clearly and fully the mortality disability and interest assumption and the methods of valuation used in the computation of all reserve liabilities.

(5) If the valuation of the certificates, as hereinbefore provided, on December thirty-one, nineteen hundred thirty-six, shall show that the admitted assets are less than the sum of the required reserves and accrued liabilities, such society shall thereafter maintain such a financial condition in respect of the degree of deficiency at each succeeding annual valuation that a greater degree of deficiency is not found to exist in any two successive annual valuations. If the society does not maintain said financial condition the Director shall direct by giving written notice that the society take the necessary action to remove at an annual valuation within three years from the receipt of such notice, the deficiency of the admitted assets to the sum of the required reserves and accrued liabilities; provided that in any event the society shall take the necessary action to remove, by December thirty-one, nineteen hundred and forty-five, any deficiency of the admitted assets to the sum of the required reserves and accrued liabilities. If such action is not taken within the time herein specified the Director shall institute proceedings against such society as provided for in relation to the liquidation of an insurance company, association or society; or in case of a foreign or alien society, its certificate of authority may be cancelled in the manner provided in this Code.

(6) Every society providing benefits of the kinds set forth in subsection (2) of section 288 shall, in the annual report referred to in subsection (1) of this section, show as a liability the unearned premium reserves and loss reserves calculated as required by sections 353 and 354 of this Code in respect to such benefits."
